#38 - Cavity Seedling Tray

LANDMARK OCTAGON & HEX TRAYS with the Ventilator System design featuring top die-cut air holes to promote air flow through entire tray and uniform moisture retention. The Octagon trays have straight row design for use with most automatic seeders and transplanters. The 288 and 512 sizes have common centre spacing with standard 288 and 512 plug trays. They also feature a no-lip design and large area for bar coding. Hexagon trays are available in various straight row and off-set configurations.
