

We carry the full line of **POPPELMANN/TEKU** thermoformed and injection-molded products. The mega-hole cross bottom drainage system on many of the pots offers superior irrigation and solid aeration. The strong rim guarantees outstanding stability and gives excellent results with potting machines and other automation equipment. Standard colors on most thermoformed pots are solid Black, Green outside/Black inside and Terra Cotta outside/Black inside. Standard colors on most injection molded pots are: Black, Green and Terra Cotta.
