

Sun Gro Horticulture offers the products that will help you grow the highest quality plants for your customers. Backed by our superior technical support and research personnel, we have the products that fit your needs.

SUNSHINE

Professional Mixes

- The most consistent growing media, made with select Canadian sphagnum peat moss, aggregates and nutrients.
- Sun Gro Horticulture's wetting agent that wets more thoroughly and lasts longer.

TECHNIGRO Water Soluble Fertilizers

- The most soluble fertilizer on the market with added sulfur and magnesium for greener, healthier growth.
- Packaged in a thick plastic bag for extra protection against hardening.

multicote Controlled Release Fertilizer

- Controlled release fertilizer made with the highest quality nutrients.
- Formulations have a reliable release profile, unaffected by soil type, soil ph, moisture or microbial activity.
